## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Georgann S. Grunebach on August 18, 2004.

The application has been amended as follows:

Claims:

19. Canceled

20. A method of controlling a communications system having a stratospheric platform with a phased array antenna with a plurality of elements, said method comprising the steps of: forming a plurality of beams in a gateway station by scaling a plurality of elements using adaptive interference rejection by estimating interference values from user position values and creating said adaptive interference rejection by subtracting interference values from the plurality of beams, wherein said step of forming comprises the step of estimating interference on a first beam from a second beam; communicating the scaling of elements to a stratospheric platform; and generating the beams in response to the scaling of elements by the stratospheric platform.

***Allowable Subject Matter***

2. Claims 2-17 and 20 are allowed.
3. The following is an examiner's statement of reasons for allowance: A system wherein a digital beam former circuit having a digital beam former, an adaptive beam processor coupled to user position files, said digital beam former circuit coupled to the beam generator, the digital beam former generates a plurality of element control signals, said adaptive beam processor generating said adaptive interference rejection. Have not been found or fairly suggested in the prior art search.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marcos L Torres whose telephone number is 703-305-1478. The examiner can normally be reached on 8:00am-5:30pm alt. friday.
